

Report for RNSA on “Asiacrypt - The 14th Annual International Conference on the Theory and Application of Cryptology & Information Security - 2008

Asiacrypt 2008 was held in Melbourne, Australia from December 7-11 2008. There were 190 registrations in total; the break-down being 33 student and 157 ordinary registrations.

Sponsorships were welcomed from the RNSA, who provided all costs of one of the international invited speakers, Sun Microsystems, who provided wireless Internet for the participants, the Melbourne Convention Centre, who provided gifts for the conference bags, as well as advertising from SECIA.

Deakin and Macquarie Universities provided the support for paper submission and local organization.

Presentations, videos and pictures from the conference can be found at <http://www.deakin.edu.au/scitech/eit/asiacrypt2008/>
