

Institute Based APA Scholarships in Information Security

QUT's Information Security Institute (ISI) is a leading international research institute. QUT is offering a number of institute based APA scholarships to full-time commencing and continuing PhD domestic students who are able to commence candidature and scholarship preferably by **1 June, 2008**. The recipient must undertake a cross-disciplinary project. A list of typical projects can be viewed at: <http://www.isi.qut.edu.au/research/scholarships/>

The PhD scholarships will provide you with an opportunity to work in a dynamic research environment in one of the following key areas:

- ◆ Cryptology
- ◆ E-Business and E-Government
- ◆ Technology, Law and Policy
- ◆ Speech, Audio, Image and Video Technology
- ◆ Trusted Systems and Network Security
- ◆ Governance and Information Protection
- ◆ Computer Intrusion, Forensics and Evidence
- ◆ Risk and Crisis Management

A competitive stipend of \$20,007 pa and a top-up of \$6,000 pa (tax exempt and indexed annually) for 3 years will be offered.

Graduates with some experience in a relevant industry/area are encouraged to apply.

These scholarships are funded by the Commonwealth Government and must follow the rules of the Australian Postgraduate Award (APA) Scholarships. For full scholarship details and guidelines visit: <http://www.isi.qut.edu.au/research/scholarships/>

Applications must be lodged by 5pm **Friday, 9 May 2008**
